

MINI-GUIDE FRArt CALL 2026

French version: [click here](#).

1. SCHEDULE

- **Publication of the call: Tuesday 17th June 2025**
- Closing of file submissions in Higher Schools of Art (ESA¹): Friday 31st October 2025. *Should several ESA be involved, the main author must then inform each of them.*
- **Opening of the call: Thursday 11th December 2025** on [e-space](#) for the online submission
- Closing of the call: Tuesday 3rd February 2026
- Meeting of the International Artistic Committee estimated date: March/April 2026
- Board of Trustees of the FRArt: April 2026
- Beginning of the PDR-FRArt: between 1st June and 1st December 2026

INSTRUMENT	FRART CALL 2026	
	ELECTRONIC VALIDATION DEADLINES ² ON E-SPACE	
	MAIN AUTHOR (ARTIST)	FACILITATOR (MAIN ESA)
FRArt Research project PDR-FRArt	Tuesday 27 th January at 2 p.m.*	Tuesday 3 rd February at 2 p.m.

*Please note that this is a **fixed deadline**, and the applicant will not be able to edit, save or submit the application once this deadline has passed. Please make sure that it is submitted on time.

2. SCOPE OF THE FRART CALL

The Art Research Fund (FRArt) is an Associated Fund of the F.R.S.-FNRS which aims at funding research projects in art carried out outside the scope of doctoral research and outside of any artistic production funding by an artist-researcher or an artistic collective³.

The submitted applications are motivated by a research process (unsolved hypotheses; need of funding to face them).

These projects are validated by one or several ESA.

Every PDR-FRArt project must be submitted jointly by its author and a facilitator.

The author is an artist or an artistic collective⁴ (co-authors may participate in the project). In all cases, the author or artistic collective must be a natural person at the time of application.

The facilitator is one or several ESA regardless of the field: plastic, visual and spatial arts, theatre and speech arts, music, performing arts and broadcasting and communication techniques, dance.

¹ ESA = École Supérieure des Arts.

² All times are Brussels local time.

³ Applying for funding from the FRArt cannot be part of the production of an existing project that is looking for production means.

⁴ The author may be an artist-professor teaching in an ESA, in which case it must be clearly mentioned in the proposal.

A facilitator bears the title of main ESA or secondary ESA. Important notice: a **main ESA may validate a maximum of 5 projects**.

The author of a PDR-FRArt is an artist-researcher and holder of higher arts education degree or equivalent, or has proven experience in practicing artistic research.

3. INSTRUMENT

Characteristics of the PDR-FRArt instrument are summarised in the table below.

	Duration	Budget	Nature
FRArt Research Project PDR-FRArt	9 to 24 months	Max. € 50,000-	Personnel, Operating, Equipment - Personnel costs shall relate to the work of the main author and co-authors. - In case of subcontracting costs, they must be included in the operating budget. - No costs associated with the ESA can be claimed.

Information:

Tax status of the PDR-FRArt Grant: the FRArt Grant may benefit from a tax exemption since the project that will be funded will have been assessed on the basis of merit and rewards exceptional merit. This tax exemption is the responsibility of the authors.

4. CONTENT OF A PROPOSAL

Authors will have the choice of writing their proposal either in French or in English.

The F.R.S.-FNRS insists on **strict compliance with the instructions given for each part of the proposal** (number of pages allowed for the documents to be enclosed with the application form...).

NOTICE: no further change or modification to the proposal can be made after the validation deadline set for the main author.

The application file contains the main sections described in the table hereafter.

APPLICATION FRAMEWORK

PART 1: PROJECT

- References of the application (for the funded proposals, these data are released and made public on the [F.R.S.-FNRS website](#)).
 - **Title**, in French and in English (max. 200 characters each, including spaces) and,
 - **Abstract**, in French and in English (max. 2,000 characters each, including spaces).
- Contact details of the legally responsible person of the project (legal or natural person) and contact details of the contact person⁵.

⁵ The legally responsible person may be the author him/herself who is also the contact person. Otherwise, in case a non-profit organisation is an intermediary actor, the legally responsible person is the person who is authorized to represent the organisation, e.g., the president. The contact person shall be the person to be in contact with the FRArt after funding decision.

APPLICATION FRAMEWORK

PART 2: PROJECT AND AUTHOR(S)

- Artistic research project overview to be exclusively completed on the template file ([FR](#) / [EN](#)):
 - 1) Note summarising the project (max. 1 page)⁶
 - 2) Description of the research project divided into 9 subsections (max. 5 pages)

- 2.1 Field and subject
- 2.2 How does this project fit in with your artistic career?
- 2.3 How does your research fit in with current and historical artistic and theoretical research? Please identify the artists and researchers already working in the field.
- 2.4 Definition of the research problem / research (sub-)questions
- 2.5 Research objectives
- 2.6 Process and methodology
- 2.7 Role of the various co-authors et collaborators specifying their level of involvement
- 2.8 Forms of public sharing of the research and planned dissemination
- 2.9 Bibliography (written and non-written references)

- 3) Context and relevance of the project divided into 2 subsections (max. 2 pages)

- 3.1 What are the artistic, scientific, ethical, political or social issues at stake addressed by the research project?
- 3.2 Description of research partners (institutions, forums, etc.)

- 4) Development and chronology of the proposal (max. 1 page)
- 5) The reasons for collaborating with the Facilitator (ESA) (max. 1 page)
- 6) Selection of max. 5 most significant productions and/or artistic research of the author

- Author's and potential co-authors's⁷ CV⁸.
- Presentation of max. 5 most significant productions and/or artistic research previously performed by the author (file should not exceed 100 Mb).
- Accompanying agreement written by the main ESA, describing how the research project fits within the ESA.

→ *The main author must upload this document on e-space by the validation deadline set for the main author, i.e., by Tuesday 27th January 2026 at 2 p.m., at the latest.*

PART 3: BUDGET

- Provisional budget and financing plan specifying the amount requested for each item, and other potential resources.
- Contribution of any external funding to the project (optional).

⁶ In this note summarising, you are requested to specify the field, the research problem, the questions and hypotheses of the project.

⁷ Potential co-authors involved in a PDR-FRArt will be contacted by the F.R.S.-FNRS after the validation by the main author, in order to:

- Confirm they are willing to participate in the PDR-FRArt, and,
- Require them to send their curriculum vitae.

⁸ The required CV are used for the evaluation. They should therefore contain no personal data which are not necessary for that purpose.

5. SELECTION PROCEDURE (EX-ANTE EVALUATION)

The excellence of artistic research is the cornerstone of the evaluation, which is conducted in **2 steps**:

- By experts assigned by the ESA for each project (step 1),
 - By an International Artistic Committee (CAI) assessing all projects supported by ESA (step 2).
- **Step 1:** It is completed prior to submitting the applications on e-space, and it follows the exchanges between the author of the PDR-FRArt and the main ESA in order to obtain the accompanying agreement describing how the research project fits within the ESA. The main author of the PDR-FRArt will have to upload this agreement before validating on e-space.
- **Step 2:** Criteria that will be taken into account for the evaluation of the PDR-FRArt are the following:

N°	CRITERIA	WEIGHT
1	Artistic consistency of the research project	30%
2	Artistic, scientific, ethical, political, social issues at stake addressed by the research project	25%
3	Feasibility and implementation conditions for carrying out the proposed research	15%
4	Adequacy of the provisional budget and financing plan	15%
5	Quality of the author's general body of work or its potential	15%

The CAI will try to give priority to supporting up to four projects submitted by authors who graduated no longer than 5 years ago, or by authors demonstrating artistic practices and who have never had any major funding.

The CAI may reduce the requested budget up to a maximum of 15%. If the adequacy between the research programme and the requested budget is not justified and appears to require a reduction of more than 15%, the research programme will not be deemed fundable.
